

## Data & Statistics Web Links

### [Australian Bureau of Statistics](#)

Australia's national statistics body. Contains statistics on Australian people, economy, industry, environment and regional areas.

### [Australian Data Archive](#)

The Australian Data Archive (ADA) provides a national service for the collection and preservation of digital research data and to make these data available for secondary analysis by academic researchers and other users. The ADA is comprised of seven sub-archives:

Social Science, Historical, Indigenous, Longitudinal, Qualitative, Crime & Justice and International.

### [BBC Country Profiles](#)

Full profiles provide an instant guide to history, politics and economic background of countries and territories, and background on key institutions.

### [CIA World Factbook](#)

The World Factbook provides information on the history, people, government, economy, geography, communications, transportation, military and transnational issues for 267 world entities.

### [Statistics and Numeric data from the University of Auckland](#)

The OFFSTATS database provides access to free statistics from official sources on the web. Some specialised databases are only available to the University of Auckland staff and students.

### [OzGuide to Statistics](#)

A subject guide to Australian and international statistical resources on the internet. The resources record mostly current data, but some historical statistics are also included.

[The Household, Income and Labour Dynamics in Australia \(HILDA\) Survey.](#)

The Household, Income and Labour Dynamics in Australia (HILDA) Survey is a household-based panel study which began in 2001. It collects information about economic and subjective well-being, labour market dynamics and family dynamics.
